

## Private Medical Insurance

For individuals or families nothing is more important in life than your health and that of your loved ones. Private health insurance lets you choose when, where and by whom you'll be treated and enjoy prompt, first class private medical cover.

Whether paying GP fees, selecting the best out-patient consultancy or in-patient treatment on island or in the UK, our specialist knowledge and understanding will help guide you to a bespoke health insurance policy that meets your needs.

As an independent insurance broker, Vantage has access to a wide range of private medical insurers, schemes and policies and can assist in ensuring your plan matches the level and type of care you require. It is not just about looking for cheap health insurance but cover that offers real value by taking into account your requirements, lifestyle, budget and particular needs and wants.

You may already have some form of private health insurance scheme in place which you might want to review, enhance or replace. Experience has shown us that many Jersey resident policyholders are paying a far greater premium than necessary, due to out of date policies that have not been reviewed for some time.

We offer a free, no obligation appraisal to assist you in ensuring that you have the most cost-effective protection in place. Contact Vantage Insurance today on +44 (0)1534 706529 for an initial meeting.

- Private medical insurance
- Dental insurance/optical
- GP fees
- Cash plans
